

These citizens, fast asleep, could have been overcome by smoke inhalation and perished in their home. Officer Sanchez and Officer Naugle-Dudek displayed heroism while disregarding their own personal safety during the structure fire.

Officer Teresa Naugle-Dudek and Officer Ernie Sanchez were awarded this Medal of Valor on April 17, 2002.

Undaunted, all of these men and women acted with great courage, in concert with one another and with the highest degree of professionalism. And it is their undying commitment to public safety and law enforcement that is so essential to the health of our communities. Mr. Speaker, it is with great pride that I congratulate these individuals on their receipt of this tremendous honor.

CONGRATULATIONS TO THE UNIVERSITY OF SOUTHERN CALIFORNIA ON THEIR ORANGE BOWL VICTORY

HON. DIANE E. WATSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 11, 2003

Ms. WATSON. Mr. Speaker, I rise to pay tribute to the accomplishments of the University of Southern California football team. Congratulations are indeed in order for USC President Steven Sample, Head Coach Pete Carroll, and the Orange Bowl champions, who finished the season with the #1 ranking in the Sagarin and Matthews/Scripps Howard ratings and the nation's #4 ranking in the final AP and ESPN/USA Today polls.

The USC Trojan football team has shown unique skill, charisma, dedication, and love for the sport. The Trojans accumulated an 11 and 2 win-loss record while competing against some of the best programs in the country. The Trojans regular season performance and their strength of schedule earned them a Bowl Championship Series, or BCS, berth. Teamwork and a motivated work ethic combined to create second half domination over Iowa in the Orange Bowl. After going into the half tied 10-10, the Trojans mounted long touchdown marches on their first three possessions of the second half to blow open the game. USC finished the game 38-17, defeating a higher ranked Iowa Hawkeye team.

Now is also the appropriate time to congratulate quarterback Carson Palmer for winning the prestigious Heisman Trophy. This is the first time the trophy has returned to the west coast since USC running back Marcus Allen managed the feat 21 years ago. Carson Palmer is the 5th Heisman winner from USC. Palmer himself summed up the Trojan mind set this year when he stated, "I couldn't be more honored to take this trophy back to share with my teammates in Los Angeles . . . This award is as much theirs as it is mine."

Mr. Speaker, again I congratulate USC President Steven Sample, Head Coach Pete Carroll, and the football team at the University of Southern California for a season to remember.

EXPRESSING CONDOLENCES OF THE HOUSE TO THE FAMILIES OF THE CREW OF THE SPACE SHUTTLE "COLUMBIA"

SPEECH OF

HON. SILVESTRE REYES

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 5, 2003

Mr. REYES. Mr. Speaker, I wish to honor the lives of the seven courageous individuals who tragically perished aboard the Space Shuttle *Columbia* on Saturday morning. Michael Anderson, David Brown, Kalpana Chawla, Laurel Clark, Rick Husband, William McCool, and Ilan Ramon are true heroes who leave behind a legacy of cooperation, hard work, and friendship that will live on and inspire future generations of scientists and space explorers. I offer my deepest condolences to the astronauts' families.

In the midst of this tragedy, may our Nation and the international community also pay homage to all of the selfless, courageous astronauts of the National Aeronautics and Space Administration and other space agencies around the world. These men and women venture into the unknown in search of new knowledge. These complex, grueling, and dangerous missions have been the source of some of the greatest technological gains in history.

The goal of every astronaut is ultimately the betterment of mankind, and the seven explorers we lost on Saturday were working towards exactly that. They were working to understand complex mechanisms in the human body, collecting samples of their own blood, urine, and saliva to detect possible bone loss, kidney stones, muscle loss, or weakening of immune systems, to lead to developments in healthcare—like the dialysis equipment that my mother uses.

As the astronauts watched the Earth spin below them, observing climatic and atmospheric phenomena, they worked on projects to help lessen our footprint on the planet, including researching low-level combustion for use in leaner-burning automobile engines. The data from their research will have impact far into the future.

As people in my district of El Paso and across the Nation watched the *Columbia* fall from the sky on Saturday morning, we were gripped with awe and fear. We will rise out of this tragedy. The lessons that we learn from this day will bring us to a brighter tomorrow, a future in which more passionate young men and women truly become citizens of the universe, looking at the world from the vantage point of the stars. The crew of the *Columbia* lived an adventure which most of us can only imagine. As long as children look up to the sky and dream of touching the stars or standing on the moon, our memories of these brave men and women will live on.

THE RIM OF THE VALLEY CORRIDOR STUDY ACT

HON. ADAM B. SCHIFF

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 11, 2003

Mr. SCHIFF. Mr. Speaker, I rise today to introduce the Rim of the Valley Corridor Study

Act, directing the Secretaries of Interior and Agriculture to study the feasibility of expanding the Santa Monica Mountains National Recreation Area to include the mountains and canyons in Southern California that are part of the Rim of the Valley Corridor, as designated by the State of California.

The National Park Service and the U.S. Forest Service would jointly study the suitability of more than doubling the size of the Santa Monica Mountains National Recreation Area by encompassing this corridor, which contains areas of rare Mediterranean ecosystems and encircles the mountains above the San Fernando, La Crescenta, Santa Clarita, Simi, and Conejo Valleys, as well as the famed Arroyo Seco, home of Pasadena's Rose Bowl.

For many residents of Southern California, the mountains above our communities are a nearby haven to enjoy nature, a refuge from the noise and commotion of Los Angeles. Our mountains can and should be places where city-dwellers can easily go to enjoy such activities as hiking, camping, mountain biking, horseback riding, observing wildlife, and admiring nature's scenic beauty. Given the tremendous growth pressures in Southern California, we must act now to preserve our precious open space. It is my hope that the Rim of the Valley Corridor Study Act will embody a dream and vision of a Southern California enhanced not only by what was built, but also by what was preserved.

The National Park Service oversees the highly successful Santa Monica Mountains National Recreation Area, the world's largest urban park, spanning from the mountains to the sea and protected in perpetuity by Congress in 1978. Inclusion of the Rim of the Valley Corridor would link wildlife habitat in the Santa Monica Mountains to the Angeles National Forest.

The Rim of the Valley Corridor Study Act would require the Secretaries of Interior and Agriculture to complete their study within one to three years, consulting with state and local government entities. It would then be necessary for Congress to enact subsequent legislation to implement the study's recommendations.

I am pleased that this legislation has bipartisan support, with Reps. HOWARD BERMAN, DAVID DREIER, GEORGE MILLER, BRAD SHERRMAN, and HILDA SOLIS as principal co-sponsors. I am delighted that the senior Senator from California, Senator FEINSTEIN, is also introducing this important legislation today.

The Rim of the Valley Corridor Study Act will result in an initiative creating a lasting legacy of nearby natural open space for our children—and their children—to enjoy.

HONORING RICHARD WILLIAMS, JR.

HON. JOHN J. DUNCAN, JR.

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 11, 2003

Mr. DUNCAN. Mr. Speaker, I rise today to honor the life of Mr. Richard Williams, Jr., who served as Blount County Commissioner from 1984 until recently.

Commissioner Williams was dedicated to his family, faith and Country. He was a great American.
